1 WHEREUPON, the following proceedings were had at
2 9:05 a.m.:

3 CHAIRMAN WROTENBERY: Go on the record, go ahead
4 and make a note. It's the Commission's hearing on Friday,
5 September 27th, 2002. It's a little after 9:00 a.m., and
6 we're in Porter Hall in Santa Fe, New Mexico.

7 We have two Commissioners present today, which
8 does make a quorum. I'm Lori Wrotenbery, serving as Chair
9 of the Commission, and Commissioner Jami Bailey is also
10 present representing Land Commissioner Ray Powell.

11 Commissioner Robert Lee could not be here today,
12 and so we are going to defer action -- or defer hearing
13 testimony, in one of the cases in which I think it's very
14 important that he be here, and that is Case 12,934, which
15 is the Application of the New Mexico Oil Conservation
16 Division for repeal of Rule 402, the method and time of
17 shut-in pressure tests. We were going to hear a
18 presentation from the Division on that proposal today, as
19 well as hear any public testimony, but since Commissioner
20 Lee can't be here, we've decided to take that up at our
21 October meeting instead.

22 We also have several other cases that have been
23 continued or dismissed, either one.

24 One is Case 12,867. This is the Application of
25 the Oil Conservation Division to amend and adopt rules

1 pertaining to surface commingling. And there's a note on
2 the docket that this case will be dismissed.

3 Mr. Brooks, can you explain what's the status of
4 that case?

5 MR. BROOKS: Madame Chairman, Commissioner
6 Bailey, there are two surface commingling cases that have
7 been filed. That was the result of an administrative
8 error. I filed one, not knowing that a previous
9 Application had actually been filed.

10 The first Application is being dismissed. The
11 Division is requesting that the second Application be
12 continued till the November docket.

13 CHAIRMAN WROTENBERY: Okay, and I see that now.
14 The second Application is Case 12,935.

15 MR. ROSS: Right.

16 CHAIRMAN WROTENBERY: And it's the Application of
17 the New Mexico Oil Conservation Division to amend Rules
18 303.B, 309.B, 309.C, 303.A and 309.A. And that case has
19 been continued to--

20 MR. BROOKS: -- to the November --

21 CHAIRMAN WROTENBERY: November 22nd.

22 MR. BROOKS: Correct. Thank you.

23 CHAIRMAN WROTENBERY: Thank you.

24 And then we have a set of cases numbered 12,567,
25 12,535, 12,590, 12,569, 12,738 and 12,794, relating to

1 competing compulsory pooling Applications of Ocean Energy
2 Resources, Yates Petroleum Corporation and -- I was
3 thinking David Arrington was involved in those cases too,
4 but am I thinking of the wrong set of cases?

5 At any rate, those Applications are being heard
6 *de novo* by the Commission, and the parties have requested
7 that the cases be continued for six months. They are
8 continuing to work with one another, as I understand it, to
9 try to resolve those issues.

10 No, that is not the set of cases that involved
11 Arrington, I was confused there. Now I see what we've got
12 going here.

13 Okay, and then Case 12,897 is the Application of
14 the New Mexico Oil Conservation Division through the
15 Environmental Bureau Chief for the adoption of amendments
16 to Division Rule 118 on hydrogen sulfide gas, and we took
17 additional testimony in that case and determined to
18 continue the Case to the October 25th meeting.

19 I think that takes care of the pending matters
20 that we need to address today.

21 The minutes of the August 30th, 2002, Commission
22 Hearing are also on the docket. And Commissioner Bailey,
23 have you had a chance to review these minutes?

24 COMMISSIONER BAILEY: Yes, I have, and I move
25 that we adopt them.

1 CHAIRMAN WROTENBERY: And I'll second that
2 motion. All in favor say "Aye".

3 COMMISSIONER BAILEY: Aye.

4 CHAIRMAN WROTENBERY: Aye. And I'll sign those
5 on behalf of the Commission. Thank you.

6 (Thereupon, these proceedings were concluded at
7 9:10 a.m.)
