Subject: Case Number 12935

Lori,

I have reviewed the November 19, 2002 draft of the proposed adoption of amendments to Rules 303 and 309 and Marathon Oil Company completely supports the efforts of the Commission and the workgroup to revise the NMOCD's proposed surface commingling rule.

We believe that this effort provides an more efficient means of identifying pool and lease segregation and measurement where common and diverse ownership exists and provides for a streamlined approval process.

Thanks you for the opportunity to serve on the workgroup in preparing this rule change.

Very truly yours,

Walter Dueease
