Attention: David Brooks

Dear New Mexico Oil & Gas Conservation,

I will be representing: O. Leonard Mosley, & Leona M., George A. Mosley & Janet R., Mary Gwendolyn Mosley, Betty A. Nelms, and myself for the NM Oil Conservation Division Case scheduled on February 6, 2003.

I will be presenting all correspondence that we have had with San Juan Resources and with our attorney on the lease that was initially agreed upon. The agreement was that 20% gross was to be paid, when I received the lease, it was changed to 20% net.

I have tried in good faith to settle the lease of property to San Juan Resources. I feel that they have been unethical and have misrepresented themselves.

With the extra cost and time involved, we the leaseholders feel that the last offer that we made to San Juan Resources is what we are willing to lease the property for. San Juan Resources still has not responded to that offer to date.

Due to travel time, I am requesting a 24-hour notice of any changes, postponements, or rescheduling of the hearing dated for February 6, 2003.

Sincerely,

Bobbie Lee Mosley Sr.
