BEFORE THE NEW MEXICO OIL CONSERVATION DIVISION

APPLICATION OF CONCHO OIL & GAS
CORP. FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.

Case No. 13011

APPLICATION

Concho Oil & Gas Corp. applies for an order pooling all mineral leasehold interests from the surface to the base of the Morrow formation underlying the S $\frac{1}{2}$ of Section 28, Township 19 South, Range 34 East, N.M.P.M., Lea County, New Mexico, and in support thereof, states:

1. Applicant is a working interest owner in the S $\frac{1}{2}$ of Section 28, and has the right to drill a well thereon.

2. Applicant proposes to drill its Codorniz Fed. "28" Well No. 2, at an orthodox location in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of the section, and seeks to dedicate the S $\frac{1}{2}$ of the section to the well for all pools or formations developed on 320 spacing within that vertical extent, including the Undesignated Quail Ridge-Morrow Gas Pool.

3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral leasehold interest owners in the S $\frac{1}{2}$ of Section 28 for the purposes set forth herein.

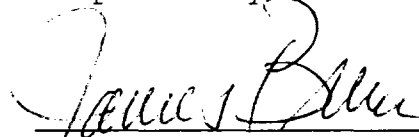

4. Although applicant attempted to obtain voluntary agreements from all mineral leasehold interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral leasehold interest owners in the S $\frac{1}{2}$ of Section 28, pursuant to NMSA 1978 §70-2-17.

5. The pooling of all mineral leasehold interests underlying the S½ of Section 28 will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, Applicant requests that, after notice and hearing, the Division enter its order:

- A. Pooling all mineral leasehold interests in the S½ of Section 28, from the surface to the base of the Morrow formation;
- B. Designating applicant as operator of the well;
- C. Considering the cost of drilling and completing the well, and allocating the cost thereof among the well's working interest owners;
- D. Approving actual operating charges and supervision costs, together with a provision adjusting those rates as provided in the COPAS accounting procedure; and
- E. Setting a penalty for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

James Bruce
