P R O C E E D I N G S

By Mr. Paul Forker - Attorney for National Surety Corporation.

This well was started back in 1937, I believe, and the last work done on it was in 1939. I have been serving the National Surety Corporation in this territory since 1941, and all during that time have been trying to locate Mr. McAuliffe. Have been unable to secure any information as to where he is, and communicating with the land owner, have been unable to receive any response from him. I did receive copy of a letter from Mr. Coates, in which he has indicated he would like to have the well turned into a water well. There has not been any production on the well, and I think the driller and contractor has apparently left these parts and cannot be located. I think the well should be declared abandoned.

MR. KELLY: Mr. Yarbrough, please state to the Commission the condition of this well on your last visit there.

MR. YARBROUGH: My last visit there was July 30, 1943. I have not been to it this year. My last visit to the well, I have a record of what was there, I believe some 12 $\frac{1}{2}$ " and 10" pipe, couldn't see anymore.

MR. KELLY: The well never produced any oil or gas to your knowledge?

MR. YARBROUGH: No - I don't know if they ever got any showing of anything.

MR. KELLY: Was there a rig on the well?

MR. YARBROUGH: No - nothing there.

MR. FORKER: I suggest an order to plug the well be made, as Mr. Coates desires to have it made into a water well.

MR. KELLY: The Commission will order this well to be plugged and abandoned, it is up to the Surety Company and Mr. Coates regarding plans for turning the well into a water well.

I hereby certify that the foregoing and attached two and a fraction pages of typewritten matter constitute a true, correct and complete transcript of the shorthand notes taken by me in Case No. 52, on the 4th day of August, and by me extend into typewriting.

WITNESS my hand this 9th day of September 1944.
