Dear Mr. Seth:

This is to advise that the Oil Conservation Commission has filed and entered Order No. 723 in Case No. 100 - the plugging of the Chaves County well known as the Tarkenton well located in the SE1/4 of Section 33, Township 11 south, Range 25 East.

A copy of the order is enclosed herewith.

Respectfully yours,

GEORGE A. GRAHAM
Attorney
Oil Conservation Commission

Re: In the Matter of the Abandonment
of Well Drilled by Charles R. Tarkenton
in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 33, Township 11
South, Range 25 East, New Mexico

Gentlemen:

Under date of September 23rd, I wrote you in
the above matter.

I have had no reply, and I would appreciate
advice as to the present status of the case.

Very truly yours,

A handwritten signature, likely of J. O. Seth, is written in cursive script. The signature is fluid and somewhat stylized, with the first letter being a large capital 'J'.

Artesia, New Mexico

Dear Bill:

In order to satisfy the files, would it be too much to ask you to prepare or arrange to have prepared a set of C-103's revolving the so called Tarkenton well located in the SENW of Sec. 33, Tnp. 11 South, Range 25 East which was plugged by the Conservancy District.

You will recall that this matter was heard at the July 15 meeting and the Commission has by Order No. 723, Case 100 approved the whole proceedings.

It is thought that if C-103's were prepared in response to the Order, the procedural regulations would be more easily met.

Sincerely yours,

GEORGE A. GRAHAM
Attorney

RE: Case 100- Abandonment of
Charles B. Tarkenton well in
SENW Sec. 33-11S-25E, Chaves County.

Dear Betty,

In regard to the above captioned Case I am sorry that I have caused any delay in getting rid of this case on the Commissions' Docket but I was not aware that I was supposed to approve of the plugging procedure.

I have a copy of a letter which Mr. Russell Crawford, of the Pecos Valley Artesian Conservancy District, wrote to Mr. Frazier concerning the plugging of the well.

If the statement of Mr. Crawford is correct I believe that the well is plugged according to the regulations of the Commission and that the plugging should be approved and the bond in the case cancelled.

If there is any other letter which Seth & Montgomery would like to have concerning the above matter I will be happy to furnish it to them.

Yours Truly,

William B. Macey

in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 33, Township 11
South, Range 25 East, New Mexico

Gentlemen:

On July 15th, a hearing was held in the above
entitled case. We do not have in our files the
number of the case on the Commission's docket.

At the hearing, Mr. Macy reported that the
well here involved had already been plugged by
the Roswell Artesian Conservancy District. He
was to ascertain from the Conservancy District
just how the well was plugged, and if plugged in
a manner satisfactory to you, the case was to be
closed on your records.

I would appreciate advice as to whether Mr.
Macy has obtained the information, and just what
the status of the matter is on the Commission's
records.

Very truly yours,

July 18, 1947

Mr. Lake J. Frazier
Attorney at Law,
Roswell, New Mexico;

Dear Sir:

As per your request, as to the status of the Tarkington Oil Test, located in the center of Section 33 Township 11 South Range 25 East.

The Pecos Valley Artesian Conservancy District's plugging unit moved onto this well, August 26, 1946. The New Mexico Glycerin Company of Artesia, New Mexico, was employed to shoot this well casing at caprock, the depth being 608 feet. They used a 20 quart shot in bursting this casing.

The plugging crew then started pumping mud in this well, until we had good mud return, then we pumped in a 25 sack cement plug at this depth on September 3, 1946. We moved from this well marking it off of the list of wells to be plugged. We consider this well plugged and our records at the office are shown as the same.

Yours truly,

Supt. of well plugging

Well Drilled by Charles E. Tarkenton in the
SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 33, Township 11 South, Range 25
East, New Mexico

Dear Bill:

The attorneys, Seth and Montgomery, Santa Fe, have been awaiting information on the above matter. Please send us copy of report you may make on this well.

Their letter of September 23 reads, as follows:

"On July 15th, a hearing was held in the above entitled case. We do not have in our files the number of the case on the Commission's docket.

"At the hearing, Mr. Macey reported that the well here involved had already been plugged by the Roswell Artesian Conservancy District. He was to ascertain from the Conservancy District just how the well was plugged, and if plugged in a manner satisfactory to you, the case was to be closed on your records.

"I would appreciate advice as to whether Mr. Macey has obtained the information, and just what the status of the matter is on the Commission's records." signed J. O. Seth
