IN THE MATTER OF THE APPLICATION
OF W.D. BROOKOVER FOR APPROVAL
FOR AN OIL WELL TO BE DRILLED IN
AN UNORTHODOX LOCATION

W.D. Brookover 1170' from the West line and 2490' from the South line of Section 4, Township 18 South, Range 29 East, N.M.P.M., Eddy County, New Mexico

NO. 120

TO THE HONORABLE OIL CONSERVATION COMMISSION OF THE STATE OF
NEW MEXICO:

The Petitioner, herein appearing by his representative Vilas P. Sheldon of Artesia, New Mexico, hereby makes application for an order approving the drilling of an unorthodox location located 2490' from the West line and 1170' from the South line of Section 4, Township 18 South, Range 29 East, N.M.P.M., Eddy County, New Mexico; said location being closer to the boundary lines of the unit involved than is permitted by general rules and regulations, and in support thereof respectfully states as follows:

1. That said unorthodox location will be known as the W.D. Brookover Watson & Smith #5, the royalty under such lease being held by private parties and not being held by either the State of New Mexico or the United States of America.

2. That W.D. Brookover and subsequent owners have previously drilled, on the 160 acre lease involved, four oil wells, or one well on each 40 acre proration unit. During the course of drilling and producing these wells certain geological information has been developed and it is thought that a new well can be drilled in the location hereinabove specified which will encounter oil in sufficient quantities to be economically profitable.

3. That well #3 was drilled 2310' ^E from the West line and 830' from the South line of Section 4, Township 18 South, Range 29 East, N.M.P.M., and was completed as an oil producer in February of 1940. That such well will be plugged and abandoned as it no longer is profitable to operate the well. It is proposed to drill the #5 location, for which special permission is hereinabove requested, in the same 40 acre proration unit in which well #3 is now located.

4. That the drilling of a well in the proposed location will promote the interests of conservation by adding to the ultimate oil recovery from the lease, and that a well in this location will recover oil which will not be recovered by wells now drilled, and that geological information leads the Petitioner to think that the location as set out is the most desirable location on the 40 acre proration unit involved.

In consideration of the foregoing statements, your Petitioner respectfully requests that the Commission give notice as required by the rules and regulations of the Commission; that a hearing on this matter be held; that the Petitioner be permitted to offer proof of the facts herein stated, and that the Commission make the following finding and order, to wit:

A. That the Commission execute an order authorizing your Petitioner to drill the unorthodox location as herein stated.

Dear Dick,

Am enclosing two petitions for special hearing. The Malco-Resler Yates application is unfortunate, however, we find that F.W.Y. left a lot of junk in this hole, but failed to make record of the fact and they did not tell us- let us find out for ourselves.

The Brookover petition is self-explanatory, it is probable that a producer can be secured by 5-spotting

Let me know if the petitions are not in order, or whether you want anything else added, etc.

Dear Mr. Brookover:

We are returning your forms C-101 as presented by you dated February 24 for the reason that the location you contemplate is unorthodox.

We are inclosing Circular 6 in which you will note that no well can be located closer to the 40-acre unit boundary line than 330 feet without an open hearing by the Oil Conservation Commission. You have two alternatives, either relocate or apply for hearing before the Commission.

Very truly yours,

R. R. Spurrer
