

LEA COUNTY OPERATORS COMMITTEE

DRAWER I

HOBBS, NEW MEXICO

July 27, 1949

Mr. R. R. Spurrier
Box 871
Santa Fe, New Mexico

Dear Dick:

At the request of a number of operators I am writing you to suggest that the Commission at their next hearing bring on their own motion a correction or addition to the gas-oil ratio order # 784 as follows:
\\ When remedial work on a well has been completed by an operator to correct for high gas-oil ratio in a pool having limiting gas oil ratio the adjusted allowable shall become effective on the date the new test is completed as indicated by Commission Form C116.

Heretofore the change in allowable in such cases has been made effective the first of the month following the date of the test, resulting in quite a loss in production in many instances.

Very truly yours,

Glenn Staley
