No encroachment of outer boundaries of either leasehold is involved, as each of the above stated proposed locations would be at least 1085 feet from the nearest lease boundary.

No objection is offered by this office to the well spacing plan providing for drilling of 12 wells at locations specified in the application to test the producing reservoir of the Jackson pool. The drilling of these wells may afford opportunity for additional recovery of oil and gas from the producing reservoir. Approval to drill the wells will be contingent upon approval of the unorthodox locations for proration purposes by the Oil Conservation Commission of the State of New Mexico.

Very truly yours,

Attention: Mr. R. R. Spurrier

Gentlemen:

Enclosed herewith is Application, in triplicate, of Danciger Oil & Refining Company, for an order granting permission to drill twelve unorthodox "five spot" locations on its Turner "A" and Turner "B" Leases, located in Sections 17, 18, 19 and 20, Township 17 South, Range 31 East, N.M.P.M., in Eddy County, New Mexico.

At your earliest convenience, will you please set a time for hearing this Application, and publish notice thereof, and advise me the date set for hearing this Application.

The lands upon which these locations are desired are embraced in Federal Oil and Gas Leases, and therefore, a copy of this Application is being furnished Mr. Foster Morrell, Supervisor of the United States Geological Survey at Roswell, New Mexico.

Very truly yours

  
John E. Cochran, Jr.
