Hobbs, New Mexico

Dear Mr. Staley:

Re: Cases 191 and 207
- Notice of Publication

We enclose herewith, signed copy of Notice of Publication, covering the cases to be heard at the Oil Conservation Commission's hearing on December 20, 1949.

Very truly yours,

R. R. Spurrier
Secretary-Director

RRS:nws
encl.

P.S. Don McCormick, Foster Morrell and several others, complained to me that they did not receive notices for the last hearing, on December 1st. Will you please see that the entire mailing list is advised for these hearings, in the future?

CC of petition to Glenn Staley.

NEIL B. WATSON
ATTORNEY AT LAW
ARTESIA, NEW MEXICO

November 17, 1949

Graham

Mr. R. R. Spurrier, Secretary,
New Mexico Oil Conservation Commission,
Santa Fe, New Mexico.

Dear Mr. Spurrier:

For Stanley L. Jones, Inc., I enclose a Petition, in triplicate, for approval of an unorthodox location of its State No. 13 Well. The reasons for this unorthodox location are probably somewhat obscure but, in any event, Stanley L. Jones, Inc. is the owner of the adjoining offset leases or operating rights to a depth below the horizon from which this well is producing, so I do not believe the rights of any other lease owners can be prejudiced.

As I stated to you on the phone, it would be appreciated if permission could be obtained to produce the oil and deliver it to the refinery so that it will not be necessary to shut the well down. I understand that you do not want to authorize Mr. Newman to permit this to be done until you have been able to consult with at least one other member of the Commission, and have so explained the matter to Mr. Jones.

With kind regards, I am,

Yours very truly,

Neil B. Watson
Neil B. Watson.

STANLEY L. JONES

OIL PRODUCER AND OPERATOR

P. O. BOX 464

ARTESIA, NEW MEXICO

November 15, 1949

Mr. R. R. Spurrier
Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Spurrier:

In answer to your letter of November 10, 1949, I wish to thank you for your reply and your frankness. I wish to state that I would appreciate anything that you can do in regard to getting these matters cleared up for me, and I want to say that I have appreciated the cooperation I have had from you in the past. As to the requirements in the future, I will do my best to cooperate with you in every respect as I have done in the past. I don't believe I have ever denied any member of the Oil Conservation Commission or the State Land Office that privilege. I realize that you have a job to do; however, I do believe that possibly you have received some false information or else you misunderstood some of the quotations in regard to my owning stakes on all of the wells. There are times when a stake should be moved for geological reasons and surface conditions, but in case I get ready to do anything of this sort, I would consult you before hand. It is not my intention to violate the rules and regulations of the Oil Conservation Commission of the State of New Mexico.

Mr. Neal L. Watson is preparing papers necessary for the hearing on my unauthorized location in Section 23-18-27. I would like to have this hearing come up as soon as possible as I plan to be out of town during the month of December on business. I would appreciate it very much if you could get this hearing set for December 1st or some date as near that as possible.

Yours truly,

Stanley L. Jones

RE: Stanley L. Jones, Inc.
No. 13 State Sec. 23-18-27

Dear Mr. Spurrier:

Due to the fact that this is an unorthodox location, I told Mr. Jones it would be necessary to have a hearing before the Commission and that the Commission would have to approve the unorthodox location before any oil was sold. Some time after the well was completed, I believe it was November 9, Mr. Jones said that he would soon be shut in for lack of storage.

On a routine inspection of the well on November 28, I noticed that the two tanks had been numbered. They are connected with an intake and exhaust manifold and the tanks are hooked to pipe lines which I believe belongs to Nu-Mex. The 2" line leads away from the tanks and connects with a 4" line. The 4" line connects with several tank batteries and with a Nu-Mex pump.

One of the tanks is No. 781. It has seven and one fourth inches of fluid in it and the exhaust valve is sealed with seal No. 33881. The other tank is No. 782. It has four feet of fluid in it and the exhaust valve is sealed with seal No. 33064.

If further investigation reveals that oil from this well has been sold or transported, I will give you the information for further action.

Mr. Earl Allen of Nu-Mex says that the Refinery has not bought any oil from this well and that if the well is hooked to their pipe line, it is hooked up with stops and seals so that no oil could enter their pipe line.

Very truly yours,

OIL CONSERVATION COMMISSION
