To guard against mistakes or delays, the sender of a message should order it repeated, that is, telegraphed back to the originating office for comparison. For this, one-half the unreported message rate is charged in addition. Unless otherwise indicated on its face, this is an unreported message and paid for as such, in consideration whereof it is agreed between the sender of the message and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the unreported-message rate beyond the sum of five hundred dollars; nor for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the repeated-message rate beyond the sum of five thousand dollars, unless specially valued; nor in any case for delays arising from unavoidable interruption in the working of its lines.

2. In any event the Company shall not be liable for damages for mistakes or delays in the transmission or delivery, or for the non-delivery, of any message, whether caused by the negligence of its servants or otherwise, beyond the actual loss, not exceeding in any event the sum of five thousand dollars, at which amount the sender of each message represents that the message is valued, unless a greater value is stated in writing by the sender thereof at the time the message is tendered for transmission, and unless the repeated-message rate is paid or agreed to be paid, and an additional charge equal to one-tenth of one percent of the amount by which such valuation shall exceed five thousand dollars.

4. Except as otherwise indicated in connection with the listing of individual places in the filed tariffs of the Company, the amount paid for the transmission of a domestic telegram or an incoming cable or radio message covers its delivery within the following limits: In cities or towns of 5,000 or more inhabitants where the Company has an office which, as shown by the filed tariffs of the Company, is not operated through the agency of a railroad company, within two miles of any open main or branch office of the Company; in cities or towns of 5,000 or more inhabitants where, as shown by the filed tariffs of the Company, the telegraph service is performed through the agency of a railroad company, within one mile of the telegraph office; in cities or towns of less than 5,000 inhabitants in which an office of the Company is located, within one-half mile of the telegraph office. Beyond the limits above specified the Company does not undertake to make delivery, but will endeavor to arrange for delivery as the agent of the sender, with the understanding that the sender authorizes the collection of any additional charge from the addressee and agrees to pay such additional charge if it is not collected from the addressee. There will be no additional charge for deliveries made by telephone within the corporate limits of any city or town in which an office of the Company is located.

5. No responsibility attaches to this Company concerning messages until the same are accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

6. The Company will not be liable for damages or statutory penalties when the claim is not presented in writing to the Company, (a) within sixty days after the message is filed with the Company for transmission in the case of a message between points within the United States (except in the case of an intrastate message in Texas) or between a point in the United States on the one hand and a point in Alaska, Canada, Labrador, Mexico, Newfoundland and St. Pierre & Miquelon Islands on the other hand, or between a point in the United States and a ship at sea or in the air, (b) within 95 days after the cause of action, if any, shall have accrued in the case of an intrastate message in Texas, and (c) within 180 days after the message is filed with the Company for transmission in the case of a message between a point in the United States and a foreign or overseas point other than the points specified above in this paragraph; provided, however, that this condition shall not apply to claims for damages or overcharges within the purview of Section 415 of the Communications Act of 1934.

7. It is agreed that in any action by the Company to recover the tolls for any message or messages the prompt and correct transmission and delivery thereof shall be presumed, subject to rebuttal by competent evidence.

2. That all wells are producing from the Wilson Pay of the lower Yates and upper Seven Rivers formations, encountered at approximately 3775 feet.
3. That Applicant, on the basis of geological and engineering information, is of the opinion and belief that the present producing offset wells, designated as wells No. 9 and 14, will not recover oil from the forty acre unit, SW/4 NW/4 of Section 13, Township 21 South, Range 34 East. State

No. 11 was drilled in the center of the above described unit to a total depth of 3860 feet and completed as a dry hole. It is the belief of the Applicant that a second well on the unit would be in the interest of conservation, prevent waste, and would enable the Applicant to recover substantial quantities of oil which would not otherwise be produced if such location is not drilled.

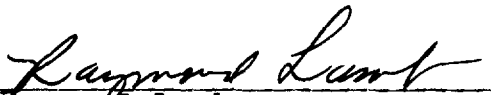

4. Wilson Oil Company desires, and hereby makes, application to drill State B 6807 well No. 41 at the following location:

Well No. 41: Section 13, Township 21 South, Range 34 East, N.M.P.M., to be located 2310 feet south of the north line and 1270 feet east of the west line of said Section 13.

5. That said proposed unorthodox location will be 990 feet from property line of north offset operator, and 1270 feet from property line of west offset operator.
6. That in the event an order is hereby entered by the Oil Conservation Commission, granting permission to Applicant to drill the hereinabove described unorthodox location at the location designated, it is not Applicant's intention, nor does applicant ask, that it be granted any allowable other than the daily allowable as fixed monthly by the Oil Conservation Commission for the forty acre proration unit upon which said unorthodox location is drilled.

WHEREFORE, Applicant prays that the Commission set a date for hearing this application in accord-

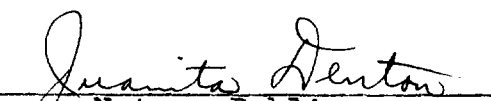

ance with its rules and regulations; that upon presentation of this application, Applicant be granted permission to drill the unorthodox location hereinabove described; and that a proper order be entered, granting permission to Applicant to produce the daily allowable from the forty acre proration unit upon which such unorthodox location is located.

REGARDING CASE NO. 216 HEARING ON WHICH IS TO BE HELD APRIL 10, 1950 ON THE APPLICATION OF WILSON OIL COMPANY FOR PERMIT TO DRILL AN UNORTHODOX LOCATION ON STATE "B" 6807 LEASE.
