TRANSCRIPT OF HEARING

CASE NO. 266

April 24, 1951

BEFORE THE
OIL CONSERVATION COMMISSION

April 24,
1951

Case No. 266: This case involves the nomenclature of now existing or new pools for McAlester Fuel Company, Simpson A-1-B, 26-15S-37E; Weier Drilling Company, Foster 6-G and Foster 5-H, 17-17S-31E; Texas Co., "AN " No. 1, SE SW 22-14S-33E; Allan Hargrave, Bradley No. 1, NWNW 24-24S-26E; and Paul C. Teas, Dinnin #1, 24-20S-33E.

(Notice of Publication read by Mr. Graham.)

MR. McCORMICK: In order to speed it, I will state that the operators have already submitted evidence by letter as to the completion of these wells and as to the producing horizons and also some recommendations as to whether they should be included in neighboring pools or should constitute new pools. I would suggest that anyone present who has any suggestion to make as to these particular pools do so, otherwise the Commission will proceed on the basis of the evidence they now have.

CHAIRMAN SHEPARD: Anyone have anything to say on this case? McAlester have anything to offer; the Weier Drilling Company, Texas Company; Allan Hargrave; Paul C. Teas? If not, then the Commission will consider it on what evidence we have.
