(DATE)

BEFORE THE  
OIL CONSERVATION COMMISSION  
STATE OF NEW MEXICO

In re:

This case, called upon the motion  
of the Commission itself, is concerned  
with the creation of new pools, correction  
of boundaries, and the modification of  
Orders 748, 799 and R-13 (etc.,) relating  
to San Juan and Rio Arriba Counties.

No. 298

TRANSCRIPT OF HEARING

August 21, 1951

MR. SHEPARD: Case No. 298.

(Mr. Graham reads the Notice of Publication.)

MR. SHEPARD: Anyone have anything to say on case No. 298?

Mr. Barnes will you state the case on behalf of the Commission?

MR. BARNES: In the matter of Case 298, we have the matter of the consolidation of the West Kutz and Southwest Kutz Pictured Cliff Gas Pools as one pool and extension thereof to include certain extension wells drilled since the original pools were created. Also, the extension of the Fulcher Kutz Pictured Cliff Gas Pool to encompass certain extensions on the flanks and to the southwest of that pool. Also the correction for possible correction of a new pool in Township 26, north range 6 west, in the area of the recent oil and gas discoveries by Doswell and Pete Igreu. The nearest geographic feature to that particular pool is known as Dogie Canyon and I would like to suggest that as a possible name for this new discovery.--

Q In conclusion then all these modifications amount to would be to take care of existing wells, is that right?

A That is right.

MR. SHEPARD: Anyone have any questions?

MR. VAN JOHNSON: Under the Doswell <sup>Pettigrew</sup> (Pete Igreu) arrangement, do you have the outlines of the proposed field as yet?

A Just very roughly. I wasn't prepared to make an absolute recommendation at this time.

MR. JOHNSON: I see. I withdraw the question.

MR. SHEPARD: Anyone else? If not you will be excused.
