

Original Proposal

CASE 407:

In the matter of the application of the Oil Conservation Commission upon its own motion for an order extending Section 'G', Oil Proration and Allocation, to provide for the addition of Rule 508, Establishment of Temporary Eighty-Acre Proration Units, said proposed rule to provide as follows:

1. Temporary 80-acre proration units are hereby established for wildcat wells, as defined in Rule 104-a, completed as oil wells with a pool depth range of 10,000 feet or more, determined in accordance with Rule 505-a;
2. After the effective date of this order, no owner of a producing well completed as a wildcat with a pool depth range of 10,000 feet or more shall be required to drill more than one well to each 80 acres in order to secure his proportionate part of the production;
3. Upon the completion of five wells to the same producing formation within a radius of two miles of a wildcat well, the burden shall be on the operator to show by competent evidence that one well will efficiently and economically drain the 80 acres assigned to the well;

and such other provisions as may properly be included therein as supported by proper testimony and evidence adduced at said hearing.
