Re: Application to Dually Complete,  
Humble New Mexico State B-1,  
Eunice-Monument Field,  
Lea County, New Mexico

Oil Conservation Commission  
State of New Mexico  
Santa Fe, New Mexico

Gentlemen:

By means of this application, Humble Oil & Refining Company wishes to state the following:

- (a) Humble Oil & Refining Company New Mexico State B-1, located in the SW/4 of the NW/4 of Section 29, T21S, R36E, Lea County, was completed November 18, 1934, at a total depth of 3971 feet. Seven-inch production casing is set at 3941 feet.
- (b) Appended Exhibit A shows the location of the subject well, other wells on the same lease and all the offset wells to the Humble New Mexico State B lease.
- (c) The subject well was completed as an oil well producing in the open hole section from 3941 to 3971 feet from the Grayburg formation. A schematic diagram of the well completion is shown in Exhibit B.
- (d) The applicant proposes to dually complete the well to produce oil from the Grayburg formation through the tubing and gas from the Yates formation through the tubing-casing annulus in the following manner:
  - (1) Perforate the 7-inch casing from approximately 3200 to 3550 feet opposite the Yates formation.
  - (2) Set a production type packer below the casing perforations at an approximate depth of 3600 feet to separate the two pay zones.

The manner and method of the dual completion is shown in the schematic diagram as Exhibit C.

- (e) Granting of this application for permission to produce the well as a dual completion with oil from the Grayburg formation and gas from the Yates formation is in the interest of conservation and protection of correlative rights.

Oil Conservation Commission  
State of New Mexico  
October 17, 1952  
Page 2

- (f) The applicant will comply with all rules and regulations of the New Mexico Oil Conservation Commission to maintain separation of production from the two pay zones.
- (g) The manner and method of the proposed dual completion is mechanically feasible and practical.

Therefore, Humble Oil & Refining Company requests that the New Mexico Oil Conservation Commission set a certain day upon which this application may be heard and after said hearing to grant permission in order that the applicant may dually complete the subject well as proposed in this application.

Respectfully Submitted,

HUMBLE OIL & REFINING COMPANY

J. W. HOUSE  
Division Superintendent

JEG/hrs

Encl.

- Exhibit A: Plot showing location of subject well, other wells on same lease and all offset wells.
- Exhibit B: Schematic diagram of subject well completion.
- Exhibit C: Manner and method of dual completion proposed in subject well.
