Reporter

SWORN TO before me this 17th day of October, 1953.

Notary Public

My Commission Expires:

Commission Expires January 21, 1954

CASE 594:

In the matter of the application of Atlantic Pipe Line Company for permission to operate a temporary portable treating plant on its Leach Tank Farm, Hobbs, New Mexico, for the processing, treating and reclaiming of approximately 25,000 barrels of basic sediment and water which has accumulated in the tanks on said tank farm, in accordance with the provisions of Rule 312 of the Rules and Regulations

MR. MACEY: In connection with Case 594, the Atlantic Pipe Line Company filed an application as outlined in the advertisement and it is found that it is a temporary treating plant they have set up and it is purely for the treating of oil which has already been deleted and is not legal production . It is not in the same category as treating mixed tank bottoms. Therefore, there is no reason for an Order in this case and I would suggest the case be dismissed.

COM. SPURRIER: Is there any objection to Mr. Macey's Motion? Is there anyone here from Atlantic?

E. J. CRAMER: I represent Atlantic Pipe Line. I have nothing to add. It just does not seem that the rules apply to our type of operation.

COM. SPURRIER: Without objection, the case will be dismissed.
