In the Matter of:

Lawton Oil Company's application for approval  
of unorthodox location 1650' from south line  
and 1980' from east line of 25-11S-37E, Lea

Case No. 630

-----  
(Notice of Publication read by Mr. Graham).

MR. HINKLE: Clarence Hinkle, Roswell, representing the  
Lawton Oil Company. I have been requested by telephone to submit  
to the Commission, in connection with the record of this case, two  
telegrams, one from the Cities Service Oil Company, the other from  
the Pure Oil Company. It is my understanding that the Lawton, the  
Cities Service and the Pure Oil Company own all of the surrounding  
acreage which is involved in all of this unorthodox location. The  
purpose of the telegrams is to show that the offset operators consent  
to the application. I will read the telegram from the Cities Service  
Oil Company. It is addressed to me. "Lawton Oil Corporation's  
proposed Devonian test to be located 660 feet from the west line,  
990 feet from the north line Section 25 East, Lea County, New Mexico,  
is agreeable with the Cities Service Oil Company as regards location.  
Signed Cities Service Oil Company, by Frank Cooter, Southwestern  
Division". The other telegram from the Pure Oil Company, addressed to  
me, "Re Case 603 before Conservation Commission, January 20, Pure Oil  
Company has no objection to drilling by Lawton Oil Corporation of its  
number A-1 lower well, located 1650 feet from the south line and 1980

feet from Section 25, Township 11 South, Range 37 East, Lea County, New Mexico. Signed Pure Oil Company, by H. W. Bradshaw". I am not familiar with the application. This was done by telephone, but it is my understanding, as I state, that the Pure, the Cities Service and the Lawton do own all of the offset acreage. I would like to file these telegrams with the record.

MR. SPURRIER: Anyone have anything further in this case? If not we will take it under advisement and move on to Case 631.
