

IN THE MATTER OF THE APPLICATION OF CONTINENTAL)
OIL COMPANY FOR APPROVAL OF AN UNORTHODOX GAS)
PRORATION UNIT CONSISTING OF APPROXIMATELY 160)
ACRES DESCRIBED AS THE E/2 SW/4 AND LOTS 11 AND)
14 OF SECTION 4, TOWNSHIP 21 SOUTH, RANGE 36)
EAST, N.M.P.M., LEA COUNTY, NEW MEXICO, FOR ITS)
MEYER B-4 WELL NO. 6 IN THE EUMONT POOL

Case No. 622

DEC 31 1953

APPLICATION

Comes now Continental Oil Company, hereinafter called "applicant" and respectfully requests approval of an unorthodox gas proration unit as described in the caption hereof and in support thereof would show the following:

1. Applicant is joint owner and is the operator of a lease known as the Meyer "B" lease which includes E/2 and E/2 W/2 Section 4, Township 21 South, Range 36 East, Lea County, New Mexico.
2. Applicant drilled its No. 6 well in the center of Lot 14 of said Section 4 on said lease and completed said well on April 16, 1936 as a bradenhead gas well producing into the annular space between 7 5/8" and 5 1/2" casing strings from a depth of approximately 3,500 feet.
3. Lots 12 and 13 and the W/2 SW/4 of said Section 4 are a part of another lease in which both the mineral interest and the leasehold are of ownership diverse to that under applicant's Meyer "B" lease. The pooling of the diverse interests involved within standard governmental quarter-sections would be impractical because of the complex factors involved therein.
4. This well is within the area designated by the Commission as the Eumont gas pool. No other gas well is completed in the 160-acre unit proposed by this application.

Wherefore, applicant respectfully requests that the Commission place this matter on its docket for hearing at the regularly scheduled January, 1954 hearing, issue due notice thereof, and upon hearing enter an order approving an unorthodox gas proration unit for applicant's Meyer B-4 well No. 6 as described hereinabove.
