Re: Application for Unorthodox  
Gas Proration Unit, Amerada DEC 11 1953  
State T Lease, Eumont Gas  
Pool, Lea County, New Mexico

Gentlemen:

By this letter of application Amerada Petroleum Corporation wishes to state the following:

- (1) That the E/2 of the W/2 of Section 25, T-19-S, R-36-E, Lea County, New Mexico is a portion of Amerada Petroleum Corporation's State "T" Lease. That portion of the lease in Section 25 consists of 160 acres. The attached plat shows the subject tract, the other tracts in the section, and the wells located thereon.
- (2) That well No. 3, located 1980 feet from the north and 1980 feet from the west lines of Section 25 on the Amerada State "T" lease, which had been an oil well producing from the Monument Pool was recomplected as a gas well in the reservoir which is now established as the Eumont Gas Pool. The recomplecting of the well was on February 15, 1952, or prior to the issuance of Oil Conservation Commission Order R-370-A, Special Rules and Regulations for the Eumont Gas Pool.
- (3) That the provisions of Rule 12 of Order R-370-A have been complied with for this well and lease.
- (4) That the applicant proposes that the E/2 of the W/2 of Section 25, T-19-S, R-36-E be established as a 160 acre gas proration unit in exception to rule 7 (a) of Order R-370-A.
- (5) That unitization of this tract with other tracts to form standard proration units is impractical.
- (6) That granting of this application will not interfere with the establishment of four 160 acre proration units with four reasonably spaced gas wells in this section.

Therefore, Amerada Petroleum Corporation requests that the Oil Conservation Commission set a certain day upon which this application may be heard and after said hearing establish the proration unit as proposed in this application.

Respectfully Submitted,

AMERADA PETROLEUM CORPORATION
