- - - -

(Notice of Publication read by Mr. Graham).

S. J. S T A N L E Y

having been duly sworn, testifies further as follows:

DIRECT EXAMINATION

By MR. GRAHAM:

Q Will you state your name and occupation?

A My name is S. J. Stanley, Engineer for the Oil Conservation Commission, of New Mexico.

Q For the benefit of the Commission will you make a statement

on Case 651 from the information you may have?

A I recommend that the pools be created and extended as advertised. In the creation of the Fowler-Drinkard Oil Pool for Drinkard production I will ask for postponement in reading the top of the perforation since the information I have is incorrect and I will have to review this information as evidence in the well files.

Q Will you supply the information for the benefit of the Commission?

A I will.

MR. SPURRIER: Is there any objection? If not proceed.

A In Case 651 (b) creation of the Skaggs-Drinkard Oil Pool discovered by the Texas Company, C. H. Weir B No. 1, in Section 11, Township 20 South, Range 37 East, the top of the perforation is 6,856. In support of my testimony I wish to introduce these plats.

MR. SPURRIER: Without objection they will be admitted. Does anyone have a question of the witness? The witness may be excused. We will take the case under advisement and move on to Case 652.

STATE OF NEW MEXICO)
COUNTY OF BERNALILLO)

I HEREBY CERTIFY that the foregoing and attached transcript of hearing in Case No. 651 before the Oil Conservation Commission, State of New Mexico, at Santa Fe, on January 20, 1954, is a true and correct record of the same to the best of my knowledge, skill and ability.

DATED at Albuquerque, New Mexico, this 25th day of January, 1954.
