DIRECT EXAMINATION

By MR. GRAHAM:

Q Will you state your name and position for the record, please?

A Elvis A. Utz, Engineer for Oil Conservation Commission.

Q Mr. Utz, have you made an investigation of Case 652 as advertised, and can you give us your recommendation and any observations you may have?

A Yes, I have, and I recommend that the South-Blanco-Pictured Cliff, the South Blanco-Tocito pools, which are in the Blanco-Mesaverde, which are now existent pools, be extended as advertised, and that we create new pools which are designated as Torreon-Entrada Oil Pool, Torreon-Mesaverde Oil Pool and the Stoney Butte-Mesaverde Oil Pool. In support of my recommendations I would like to introduce an Exhibit which states these, the delineations of these pools, together with the wells which supports these.

MR. SPURRIER: They will be accepted. Any questions of the witness? Does anyone have a comment in this case? If not we will take the case under advisement and the meeting is adjourned until nine o'clock tomorrow morning.

(Witness excused)
