

January 18th, 1954.

Oil Conservation Commission  
of the State of New Mexico,  
P. O. Box 871,  
Santa Fe, New Mexico

Gentlemen:

By this letter of application, we wish to request a hearing to consider an exception to Rule 7 of Commission Order R-368-A, insofar as it concerns our Wm. H. Harrison No. 1, West half of the Northeast quarter of Section 7, T25S, R37E, Lea County, Jalco Gas Pool, containing 80 acres, as shown on the attached plat. This well is dually completed in accordance with Commission Order DC-10.

It is impossible to unitize into a standard form tract since the East 80 acres of the NE/4 has a gas well being produced by R. Olsen Oil Company.

Yours very truly,

DALPORT OIL CORPORATION

By W. L. Todd, Jr.

(The above mentioned plat is on file with O. C. C. in Santa Fe, New Mexico.)

Oil Conservation Commission,  
State of New Mexico,  
Santa Fe, New Mexico.

Gentlemen:

The Dalport Oil Corporation makes application for an exception to Rule 7 of Commission Order R-368-A, insofar as it concerns our Wm. H. Harrison No. 1, W/2 of the NE/4, Section 7, T-25-S, R-37-E, Jalco Gas Pool, and states the following:

1. This well is producing oil from the Queen formation and gas from the Yates formation through perforations from 2820 to 2900 and 2952 to 2976, having been completed in compliance with Commission Order No. DC-10, dated September 28, 1953.

2. There is a gas well producing gas from the Yates formation from the E/2 of NE/4, therefore it is impossible to unitize into an approved quarter section.

3. We respectfully request that the Commission assign to this well an 80 acre gas proration unit allowable.

Yours very truly,

DALPORT OIL CORPORATION
