IN THE MATTER OF:

In the matter of the application of Dalport Oil Corporation for an exception to Rule 7 (a) of Order No. R-368-A to permit the establishment of an unorthodox gas proration unit consisting of W/2 NE/4 of Section 7, Township 25 South, Range 37 East, Lea County, New Mexico, in the Jalco Pool.

Case No. 655

(Notice of Publication read.)

MR. WRIGHT: My direct testimony will be all, unless someone has some cross questions.

I am Edward Wright, Jr., with the Dalport Oil Company, Dallas, Texas. The Dalport Oil Corporation makes application for exception to Rule 7(a) of Commission Order R-368-A, insofar as it concerns our William H. Harrison No. 1, located on the west half of the northeast quarter of Section 7, Township 25 South, Range 37 East, situated in the Jalco Gas Pool, and state the following:

"This well is producing oil from the Queen formation and gas from the Yates formation through perforations from 2820 to 2900 and from 2952 to 2976, having been completed in compliance with Commission's Order Number DC-10, dated September 28, 1953. There is a gas well which produces gas from the Yates formation located on the east half of the northeast quarter of Section 7, Township 25 South, Range 37 East, therefore, it was impossible for us to unitize into an approved standard unit. We respectfully request to assign to this well an 80-acre gas proration unit allowable."

I would like to present a letter which covers that as an exhibit.

MR. SPURRIER: Without objection the exhibit will be admitted.

Does anyone have a question of the witness? If not, the witness may be excused.

(Witness excused.)

MR. SPURRIER: Does anyone have anything further in the case?
We will take the case under advisement and move on to Case 656.
