Transcript of Hearing in
Case No. 669

February 18, 1954
Regular Hearing.

BEFORE THE
OIL CONSERVATION COMMISSION
STATE OF NEW MEXICO
at
Santa Fe, New Mexico
February 18, 1954
Afternoon Session

In the Matter of:

Application of the Oil Conservation Commission
upon its own motion for an order exempting the
South Leonard Pool from the requirements of
Rule 506 (paragraph 'd') pertaining to Gas-Oil
Ratio Limitations, and from the requirements
of Rule 301, pertaining to the filing of Form
C-116, Gas-Oil Ratio Test.

Case No. 669

(Notice of Publication read.)

WILLIAM B. MACEY

testified as follows:

DIRECT EXAMINATION

By MR. YOST:

Q State your name, please. A William B. Macey.

Q What is your position, Mr. Macey?

A I am Chief Engineer for the Oil Conservation Commission.

Q You have testified before the Commission before, have you not?

A Yes, sir.

MR. YOST: Are his qualifications acceptable?

MR. SPURRIER: They are.

Q Case 669 involves application of the Oil Conservation
Commission upon it's own motion, for the order from the requirements
of rule 506 (paragraph 'd') pertaining to Gas-Oil Ratio Limitations
and from the requirements of rule 301 pertaining to the filing of

Form C-116, Gas-Oil Ratio Test. You are acquainted with the subject matter of this case, are you not? A Yes, sir.

Q Will you please give the commission the benefit of your observations in the matter and any recommendation that you might care to make?

A South Leonard Pool is located in Township 26 South, Range 37 East, Sections 23 and 24. It is in an area which is south of the Langlie Mattix Oil Pool and east of the Rhodes Pool. It is also in the immediate area of the Leonard Oil Pool. The Commission has previously removed the Gas-Oil Ratio limit from these three pools. The south Leonard Pool has 14 producing wells which have an average productivity of five barrels per day. The gas production averages 60,000 cubic feet per well per day. All of the casinghead gas is, to the best of our knowledge, being sold to gasoline plants operating in the area. Since the field is obviously a marginal field and the income from the property is very limited, it is requested that this Commission enter an order removing the Gas-Oil Ratio limit and also exempting the field from the requirements of filing annual Gas-Oil Ratio tests.

MR. SPURRIER: Are there any questions of the witness? If not, the witness may be excused.

(Witness excused.)

MR. SPURRIER: Does anyone have anything further in this case? We will take the case under advisement and move on to Case 670.

STATE OF NEW MEXICO)
COUNTY OF BERNALILLO)

I HEREBY CERTIFY that the foregoing and attached transcript of hearing in Case No. 669 before the Oil Conservation Commission, State of New Mexico, at Santa Fe, on February 18, 1954, is a true and correct record of the same to the best of my knowledge, skill and ability.

DATED at Albuquerque, New Mexico, this 22nd day of February, 1954.

Ada Dearnley
