Dear Bill:

I hope you won't be too upset with me, but the transcript in Case 696 will have to completely retyped. I don't know what happened to my typist on this one, but it was rather a difficult hearing. However, she has misspelled Mr. Stockmar's name and Trevor Rees-Jones name all the way through. Also in checking the quotations from the previous hearing in Case 696, they weren't too well read into the record and I have checked them all which has caused the re-typing of all of Mr. Smith's legal argument.

I am sure sorry, but I know you wouldn't want that transcript in your files any more than I do. It sure has been a dog all the way through, taking, typing and reading - but that is what can happen in anything as contentious as that.

See you Tuesday; am sending the transcripts of the last hearing tomorrow and will bring 696 with me unless you call and want me to push it out yet this week.

Sincerely.
