Dear Mr. Macey:

The Humble has informed me that they anticipate they will have the unit agreement signed up and ready to be filed for final approval with the U.S.G.S. by the latter part of next week. As you know, it is necessary that we attach to each copy of the unit agreement, a photostatic copy of the Order of the Commission approving the same. We would, therefore, appreciate anything you can do to have the order signed approving the Huapache Unit Agreement and would appreciate your forwarding to us at least two signed copies of the same.

Dear Sir:

In connection with the captioned federal leases, we are enclosing herewith four copies each of Consent and Ratification of Huapache Unit Agreement and Consent and Ratification of Huapache Unit Operating Agreement, which have been executed by Humble Oil & Refining Company as lessor and as unit operator.

Each of the captioned federal leases are within the Huapache Unit area, but said leases were never committed to said unit agreement. Each of these leases consists of 40 acres, being a portion of the acreage contained in the unit tracts set out in the caption. Our files indicate the remaining acreage in these tracts to be owned by Monsanto Chemical Company and their leases covering this other portion have never been committed to the Huapache Unit Agreement.

With a copy of this letter to the United States Geological Survey, P. O. Drawer 1857, Roswell, the Oil Conservation Commission, P. O. Box 871, Santa Fe, and to the Commissioner of Public Lands, P. O. Box 791, Santa Fe, Attention Mrs. Marian M. Rhea, we are furnishing a copy of this Consent and Ratification for their files.

When the captioned leases are effectively committed to the captioned unit, we would appreciate being advised of same.

Yours very truly,
