Re: Application for a Nonstandard Gas  
Proration Unit in Both the Tubb and  
Blinbry Gas Pools, to be Assigned  
To Sinclair's State 367 No. 3 Well  
in Southeast Lea County, New Mexico

Gentlemen:

Sinclair Oil and Gas Company wishes to make this application for an order granting an exception to the Commission's orders R-586 and R-610 in so far as they require nonstandard proration units to lie wholly within Governmental quarter sections in the Tubb and in the Blinbry Gas Pools.

In this matter Sinclair wishes to state:

1. Sinclair is the operator of the State 367 No. 3 Well which is located in the center of the NE/4 of the SW/4 of Section 36-21S-37E, Lea County, New Mexico. This well is currently dually completed in the Tubb and Blinbry Gas Pools and is producing from same with a 120 acre nonstandard gas unit assignment consisting of the W/2 and SW/4 of the SW/4 of said Section 36.
2. Sinclair wishes to increase the size of this dedication from 120 acres to 160 acres by the addition of the NW/4 of the SE/4 of said Section 36-21S-37E.
3. The proposed unit consists of contiguous quarter - quarter sections.
4. The entire proposed unit may reasonably be assumed productive of gas from both the Tubb and Blinbry Gas Pools.
5. Sinclair believes that it is impractical to develop the proposed 40 acre addition in any other manner than that requested herein.
6. Both the royalty and the leasehold interests under the proposed unit are of common ownership.
7. Sinclair believes that the granting of this application is in the interest of conservation and the protection of correlative rights.

Sinclair, therefore, requests that a public hearing be called for the
