Re: Non-Standard Gas Proration Unit, Jalmat Gas Pool,
Lea County, New Mexico

Gentlemen:

It is respectfully requested that the Conservation Commission approve our application for a 200 acre non-standard gas proration unit embracing the S/2 SE/4, NW/4 SE/4, SW/4 NE/4, SE/4 SW/4, Sec. 36-24S-36E, Lea County, New Mexico, and to be assigned to the State "W" No. 1.

In support of this application we wish to state the following:

1. The State "W" No. 1, located 660' N, 660' W, SE Corner, Sec. 36-24S-36E, was formerly a Langlie-Mattix oil well and was recompleted as a Jalmat Pool gas well during May, 1955. It was assigned an 80-acre non-standard gas proration unit by NSP 163, dated June 30, 1955.
2. Cities Service has entered into a gas operating agreement with Phillips Petroleum Company and John M. Kelly to include the gas rights in the S/2 SE/4, NW/4 SE/4, SW/4 NE/4, SE/4 SW/4, Sec. 36-24S-36E, a total of 200 acres. The State "W" No. 1 is to be the unit well and the agreement will be effective when a non-standard gas proration unit of 200 acres is assigned to this well by the New Mexico Oil Conservation Commission.
3. The proposed non-standard gas proration unit consists of contiguous quarter/quarter sections within a single governmental section and the entire area may reasonably be presumed to be productive of gas. The length of width of the proposed unit does not exceed 5280'.
4. A plat indicating the proposed non-standard gas proration unit and offset ownership is attached.
5. All operators in Section 36 and within 1500' of the State "W" No. 1 have been furnished a copy of this application by registered mail.

An exception to Rule 5-A, Order E-520, is requested to permit the assignment of a 200 acre non-standard gas proration unit to the State "W" No. 1.

Respectfully submitted,

CITIES SERVICE OIL COMPANY
