TRANSCRIPT OF PROCEEDINGS

MR. PORTER: The next hearing, 1126.

MR. GURLEY: We received a letter from Mr. Leroy Gideon,
to New Mexico Oil Conservation Commission, Santa Fe, New Mexico,
"Gentlemen:

The Blinebry side of the subject well was potentialed for
37 barrels of oil per day. After shut in for three weeks, the well
was opened up and casing pressure bled down from 1200# to 50# in
three hours. The Operator has since been testing its Cary No. 7

(Blinebry), but has been unable to complete the well as a commercial producer.

The Rowan Oil Company, in view of the above, respectfully requests the subject application be dismissed until further notice. Operator also requests the right to refile this application in the event of a commercial well after further remedial work is performed.

Yours very truly,

(Signed) ROWAN OIL COMPANY"

In view of this letter, if it please the Commission, I would like to ask dismissal without prejudice at this time.

MR. PORTER: Is there any objection to the motion for dismissal of this case? If not, the case will be dismissed.
