Dear Sir:

Re: Application of Sinclair Oil & Gas
Company for establishment of Pro-
ration Unit and Field Rules for the
Wolfcamp common source of supply
underlying Secs. 13, 24 & 25, 16S-
33E, and Secs. 16, 17, 18, 19, 21, 28,
29, & 30, 16S-34E, Lea County,
New Mexico

As discussed with the Conservation Attorney this morn-
ing, it is agreeable with Sinclair to consolidate, for pur-
poses of hearing and Order, the captioned Application with
the Application of Tennessee Gas Transmission Company re-
lating to the same common source of supply in the same area.

We will enter such stipulation at the time same is set
for hearing, with the understanding that Sinclair will be
entitled to put on, as direct evidence, its recommendations
as to proration units and field rules.

JHMcG:mlb

Yours very truly,

James H. McGowan

Dear Mr. Porter:

Herewith, are original and two copies of Application of Sinclair Oil & Gas Company requesting a spacing order and field rules for a newly discovered Wolfcamp common source of supply underlying the lands described in said Application.

It is requested that you have the proper notice of this Application made, set same for hearing if possible during May and it is suggested that this should probably be heard by the Commission.

I would appreciate being advised of the setting of this cause and am looking forward to seeing you and the other members of the Commission and Staff at the hearing of this matter.

Yours very truly,

James H. McGowan

Re: Commission Order R-1011

Gentlemen:

Reference is made to your letter of June 4, 1957, concerning the Oil Conservation Commission's interpretation of the above-captioned order.

The Commission interprets Rule 3 (a) of Order R-1011 as being applicable only to those wells projected to or completed in the Kemnitz-Wolfcamp Pool after the effective date of the Rule, i.e., June 1, 1957.

The Commission has consistently taken the position that a well, which was drilled in accordance with the Rules and Regulations in effect at the time it was commenced, is on an authorized location regardless of any subsequent change in Rules and Regulations.

Any well which was projected to or completed in the Kemnitz-Wolfcamp Pool prior to June 1, 1957, will be considered to be located in conformance with Rule 3 (a) of Order R-1011.

I hope that the foregoing will dispel any misgivings which you might have had concerning Order R-1011. If I can be of any further service, please do not hesitate to call upon me.

Yours very truly,

A. L. Porter, Jr.
Secretary - Director

Dear Mr. Porter:

Thank you very much for the copy of Order R-1011 issued by the Commission on May 31, 1957.

I note, however, that your finding No. 9 grants exceptions for the heretofore drilled or drilling wells, but that the order portion does not contain such an order. Am I correct in assuming that the findings have the effect of being a part of the order and, if not, can the order be corrected to grant such exceptions?

Yours very truly,

James H. McGowan

Attention: Mr. Dan Nutter

Gentlemen:

At hearing of Case 1253 on May 16, 1957, concerning Sinclair's application for special pool rules in the Seaman Area, Lea County, New Mexico, the Commission requested Sinclair furnish the net pay and porosity values of the individual wells that were used in preparing our Exhibit 5 on the lower Wolfcamp zone economics. Said values are listed below and were obtained from Microlog, Radio-active Log and Limestone Lateral Log Analysis.

<u>OPERATOR</u>	<u>WELL</u>	<u>GROSS INTERVAL</u>	<u>NET PAY</u>	<u>AVG. POROSITY</u>
Tennessee	Kemnitz A-1	10584-785	35'	9.5%
"	" B-1	10696-774	56'	9.6%
Ohio	State SA-1	10570-624	27'	8.5%
"	" SB-1	10734-786	33'	7.5%
Sinclair	Seaman Unit-2	10589-636	12'	7.9%
"	" " -3	10702-752	26'	8.3%
	Average Net Pay		<u>31.5'</u>	
	Weighted Average Porosity			<u>8.77%</u> 1649

Please advise if you require any additional data on this matter.

Yours very truly,

W. J. Rogers,
Division Engineer
