Dear Pete:

For your information, I am going to request a continuance of the Gulf - Western compulsory pooling cases to the August 15th hearing. It appears that these cases are going to be settled, but a little more time is needed to completely wind up the matter.

With kindest regards, I am

Very truly yours,

Jack M. Campbell

Hobbs, New Mexico

Dear Randall:

In checking the records on the Western Oil Fields, Inc., Amanda Sims 1-I, we find that our file shows it still to be a dual completion in the Drinkard Oil Pool and Tubb Gas Pool. We have records of the work done in connection with dualling the well on Forms C-103 and C-105 and a C-104 approved by our Hobbs Office on February 3rd, 1954.

Checking further, we find that the well was assigned a gas allowable in the Tubb Pool on February 19, 1954, which allowable was continued through December, 1956, but we are unable to find any record of gas production from the Tubb zone during that time. Our well file does not indicate that the Tubb perforations have been squeezed off. We note, however, that it is still being produced as a Drinkard oil well.

We would appreciate it very much if you would check with the local representatives of Western and find out the present status of the well and have them file the necessary forms to bring our file up to date.

Yours very truly,

A. L. Porter, Jr.

Dear Mr. Porter:

Your letter of May 8, 1957 requested that this office check the present status of the Western Oil Fields, Inc. Acenda Sine No. 1-1 in Section 25, T-22-S, R-37-E.

This well is presently a dual completion in the Drinkard and Tubb formations as authorized by EC Order No. 65. However by gas supplement No. 17-SE dated December 26, 1956 this well was removed from the gas schedule due to lack of production since 1954.

Upon receipt of your letter Mr. Paul White of Western Oil Fields, Inc. was contacted in regard to this matter. Mr. White has informed me that the well was perforated 100 feet to low in the Tubb section, and is not capable of producing into the gas system. However due to the smallness in size of their tract and apparent inability to communitize with offset operators, no remedial work has been contemplated. However, Mr. White has assured me that a Form C-102 would be filed this date to set forth the above facts and request temporary abandonment of this zone.

Yours very truly,

OIL CONSERVATION COMMISSION

Dear Mr. Porter:

You will find enclosed original and two copies of the following Applications:

1. In the Matter of the Application of Gulf Oil Corporation and Western Oil Fields, Inc. for a Compulsory Pooling Order as to Gas in the Blinabry and Tubb Gas Pools Under the SW $\frac{1}{4}$ Section 30, Township 22 South, Range 38 East, Lea County, New Mexico.
2. In the Matter of the Application of Gulf Oil Corporation and Western Oil Fields, Inc. for a Compulsory Pooling Order as to Gas in the Blinabry and Tubb Gas Pools under the SE $\frac{1}{4}$ Section 30, Township 22 South, Range 38 East, Lea County, New Mexico.
3. In the Matter of the Application of Gulf Oil Corporation and Western Oil Fields, Inc. for a Compulsory Pooling Order as to Gas in the Blinabry and Tubb Gas Pools under the NE $\frac{1}{4}$ Section 25, Township 22 South, Range 37 East, Lea County, New Mexico.
4. In the Matter of the Application of Gulf Oil Corporation and Western Oil Fields, Inc. for a Compulsory Pooling Order as to Gas in the Blinabry and Tubb Gas Pools under the SE $\frac{1}{4}$ Section 25, Township 22 South, Range 37 East, Lea County, New Mexico.

Please file these and set them down for the June statewide hearing. We assume that the Commission will publish the appropriate notice as required by law.

Very truly, yours,

CAMPBELL & RUSSELL
