

Case 1350

Docket Mailed
11-6-57
B F

October 30, 1957

New Mexico Oil Conservation Commission
P.O. Box 871
Santa Fe, New Mexico

Gentlemen:

John J. Eisner of Abilene, Texas, hereby applies for a non-standard gas proration unit within the boundaries of the Empire-Pennsylvanian Gas Pool. The non-standard gas proration unit applied for is the S/2 SE/4 of Section 20, and the N/2 NE/4 of Section 29, Township 17 South, Range 28 East, NMPM, Eddy County, New Mexico. Applicant proposes to drill a well to test the Pennsylvanian formation, the well to be located 330 feet from the North line and 990 feet from the East line of Section 29, Township 17 South, Range 28 East.

Please place this application for Examiner hearing on the November 20, 1957, docket.

Very truly yours,

HERVEY, DOW & HINKLE

Re: Case 1350

Dear Sir:

It has been called to our attention by Mr. M. L. Armstrong, Supervisor District 2, that the Kersey and Company Delhi No. 4 Well is located 330 feet from the North line and 980 feet from the East line of Section 29, Township 17 South, Range 29 East. It will, of course, be impossible for Mr. Eisner to drill his proposed well to the Empire-Pennsylvanian Gas Pool at this location as stated in the application.

Case 1350 has already been advertised showing the location of the proposed well to be as stated in the application. However, since the application is not for an unorthodox well location but rather for a non-standard gas unit, it is my opinion that it will not be necessary to readvertise the case.

Please amend the subject application to show the change in location of the proposed well. Any location which conforms with the provisions of Rule 104, (d) of the Commission Rules and Regulations would be satisfactory.

If I can be of any further service in this matter, please do not hesitate to call upon me.

Very truly yours,

William J. Cooley
Commission Attorney
