A Elvis A. Utz, Engineer with the Oil Conservation Commission.

Q Mr. Utz, as Engineer for the Oil Conservation Commission, have you had an opportunity to make a study of the creation and extension of certain oil and gas pools in San Juan and Rio Arriba County, New Mexico?

A Yes, I have.

Q Mr. Utz, have you made a study for the creation of a new gas pool for Fruitland production in Township 28 North, Range 11 West?

A Yes, I have. I recommend that the Kutz-Fruitland Gas Pool be created as advertised, and the discovery well was the R and J Drilling Company No. 25 Schlosser, which is located in Unit J, Section 27, 28 North, 11 West at an IP of 5,000 MCF a day. The top of the perforation was 1330 to 1345, however this will have nothing to do with allowables.

Q The vertical limits will be the Fruitland Formation?

A That's right.

A Yes. I recommend that the Kutz-Farmington Pool be extended as advertised on the basis of one well capable of producing in that pool.

~~Q Do you have any further recommendations in this case?~~

A I have no further recommendations. I have an exhibit which I would like to offer as an exhibit which states the extension and the wells on which those extensions are based, with the privilege of withdrawing the exhibit to replace with one that is a little neater.

Q Was this exhibit prepared under your supervision, or by you?

A Yes, it was.

Q How is that exhibit identified?

A As Exhibit No. 1, Case 1392.
