OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Date March 20, 1958

Pam

CASE 1401

Hearing Date 3/19/58 Santa Fe: DSN

My recommendations for an order in the above numbered cases are as follows:

Enter an order authorizeing the applicant, Gulf Oil Corporation, to duly complete its T. R. Andrews Well No. 3, located 1980 feet from the South line and 1980 feet from the East line of Section 32, Township 22 South, Range 38 East. Applicant proposes to produce the Tubb gas through tubing up to a Baker Model "E" changing ~~to~~ over flow tube thence through the casing annulus to the surface. The Paddock oil zone will be produced through 2 3/8 inch tubing. This system will separate the zone adequately and the oil from the Paddock can be pumped to the surface if necessary.
