

OIL CONSERVATION COMMISSION

P. O. BOX 871

SANTA FE, NEW MEXICO

May 2, 1958

Mr. Oliver Seth  
Seth & Montgomery  
P.O. Box 828  
Santa Fe, New Mexico

Dear Mr. Seth:

Enclosed herewith is Order No. R-1162 issued April 22, 1958, by the Oil Conservation Commission in Case 1418, which was heard April 9th at Santa Fe.

You will note that the fourth paragraph in the Order Portion of this order requires that each of the positive displacement flow meters shall be checked for accuracy in a manner and at intervals satisfactory to the Commission. Shell Oil Company is hereby directed to calibrate each of the positive displacement flow meters at intervals not to exceed one month and to file a report of said calibrations with the Commission. The meters shall be calibrated against a master meter or against a test tank of measured volume.

Very truly yours,

A. L. Forter, Jr.  
Secretary - Director

Date 4-11-58

CASE 1418

Hearing Date 4-9-58

My recommendations for an order in the above numbered cases are as follows:

1. Approve as requested with the following additions.
2. Provisions to shut down the <sup>Shell-</sup> Mudge # 41-24 in event of line break.
3. Production from each lease to be measure separately with positive displacement meters before custody transfer.
4. Use order R-1029 for a guide in writing this order.

*Trust. W. Examiner*
