Case 1464

*hearing*

Drawer D  
Monument, New Mexico  
May 9, 1958

New Mexico Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico

Re: Application to Dually Complete Amerada  
Ida Wimberley #3, Justis Field, Lea  
County, New Mexico in such a manner as  
to permit production of oil from the  
Drinkard and Fusselman Formations  
through parallel strings of tubing.

Gentlemen:

By this letter of application Amerada Petroleum Corporation wishes  
to state the following:

- A. That the Amerada Ida Wimberley #3 is located 1980  
feet FSL and 990 feet FWL of Section 24, Township  
25 South, Range 37 East, Lea County, New Mexico.  
The well was completed May 5, 1958 at a total  
depth of 7000 feet. The attached exhibit "A"  
shows the location of this well on the Ida Wimber-  
ley Lease together with the location of all offset  
wells.
- B. That the subject well has 7" casing set at 6960  
feet with 385 sacks of cement. The top of the  
cement behind the 7" casing is at 4057 feet.
- C. That the applicant has dually completed the sub-  
ject well in the following manner:
- (1) Perforated the 7" casing within the interval  
5886' to 5948' in the Justis-Drinkard Forma-  
tion.
  - (2) Completed in the Justis-Fusselman Formation  
from open hole interval 6960' to 7000'.
  - (3) Ran two strings of 2-3/8" OD tubing with  
Baker Model "D" production packer set at  
6800 feet.
  - (4) Produced the Justis-Fusselman Formation  
through the lower 2-3/8" tubing string and  
the Justis-Drinkard Formation through the  
Upper 2-3/8" tubing string.

*Locked Mailed  
5/27/58  
(B)*

May 9, 1958

- (5) Both formations have been tested and found to be oil productive.

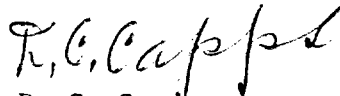

The attached Exhibit "B" is a diagramatic sketch of the dual completion.

- D. That the granting of this application to this well as a dual completion with oil from the Justis-Drinkard Formation and oil from the Justis-Fusselman Formation is in the interest of conservation and the protection of correlative rights.
- E. That the applicant will comply with all rules and regulations of the New Mexico Oil Conservation Commission to maintain separation of production from the two pay zones.
- F. That the manner and method of dually completing the subject well is mechanically feasible and practical.
- G. That by copy of this letter of application all off-set operators are notified of this dual completion.

Therefore, Amerada Petroleum Corporation requests that the Oil Conservation Commission set a certain day on which this application may be heard and after said hearing grant permission to dually complete the subject well in the manner presented in this application.

Respectfully submitted,

AMERADA PETROLEUM CORPORATION
