Re: Sinclair Oil & Gas Company's  
State Lea 692 Well No. 1  
Kemnitz (Wolfcamp) & (Penn) Pools  
Lea County, New Mexico

Case No. 1457 - Order No. R-1200  
Approval to dually complete

Case No. 1475 - Hearing 7/2/58  
Application to commingle  
Wolfcamp & Penn. production.

Gentlemen:

Please refer to the two above captioned cases, whereby Sinclair Oil & Gas Company secured approval of the New Mexico Oil Conservation Commission to dually complete subject well, and have under consideration application to commingle, into common storage, the production from the Kemnitz-Wolfcamp and Penn. zones.

This well was drilled to total depth 11,700', and was found to be dry in the Wolfcamp and Penn. formations, and has been plugged and abandoned as of July 9, 1958. For this reason it is respectfully requested that Order No. R-1200, covering permit to dually complete, be cancelled, and that no further action be taken on Case No. 1475 to commingle production.

Yours very truly,

SINCLAIR OIL & GAS COMPANY
