P.O. Box 547
Roswell, New Mexico

Dear Mr. Bratton:

On behalf of your client, Atlantic Refining Company, we enclose two copies of Order R-1288 issued November 21, 1958, by the Oil Conservation Commission in Case 1542, which was heard on November 6th at Santa Fe before an examiner.

Please note that this order requires that each meter installed in the subject system shall be tested for accuracy at intervals and in a manner satisfactory to the Commission. It will be necessary for Atlantic Refining Company to run a series of tests of sufficient duration to determine that the meters are functioning properly immediately following installation. Thereafter, tests should be made at intervals not to exceed one month and a report of said calibration filed with the Commission. The meters shall be calibrated against a master meter or against a test tank of measured volume.

Very truly yours,

A. L. Porter, Jr.
Secretary - Director
