Dear Mr. Seth:

On behalf of your client, Tidewater Oil Company, we enclose two copies of Orders R-1291 and R-1297 issued November 26, 1958, by the Oil Conservation Commission in Cases 1549 and 1550, respectively.

Please note that Order R-1297 requires that each meter installed in the subject system shall be tested for accuracy at intervals and in a manner satisfactory to the Commission. It will be necessary for Tidewater Oil Company to run a series of tests of sufficient duration to determine that the meters are functioning properly immediately following installation. Thereafter, tests should be made at intervals not to exceed one month and a report of said calibration filed with the Commission. The meters shall be calibrated against a master meter or against a test tank of measured volume.

Very truly yours,

A. L. Porter, Jr.
