Midland, Texas

Attention: Mr. John B. Ross

Gentlemen:

Your letter of November 13, 1958, furnishes additional information concerning the commingling of oil produced from the Devonian and Ellenburger formations by your Perry-Federal well No. 1, in accordance with our request of November 4, 1958.

The Texas Company Perry-Federal well No. 1 is located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ sec. 29, T. 15 S., R. 30 E., N.M.P.M., on Federal lease New Mexico 0338-A, within the Little Lucky Lake unit area. This well was dually completed on October 12, 1958 for 1053 BOPD from the Devonian formation, 11,090 to 11,134 feet, and 1,098,000 cubic feet of gas and 28 barrels of condensate per day from the Ellenburger formation at 12,068 to 12,106 feet.

The method you propose to measure the oil production from the Devonian and Ellenburger formations produced from your No. 1 Perry well is hereby approved, subject to like approval by the New Mexico Oil Conservation Commission.

Very truly yours,

JOHN A. ANDERSON
Regional Oil and Gas Supervisor
