Mr. Oliver E. Payne, General Counsel
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Oliver:

Thank you for your letter of January 7 advising that it is not necessary to serve a copy of our application in behalf of Cabot-Carbon Company for an oil-oil dual completion of its J. L. Reed Well No. 2 in the King Pool, Lea County, New Mexico; we further note you suggest that as a matter of courtesy it would be preferable to send a copy to the offset owners despite the fact that this is not required by the Commission rules.

For the information of parties receiving a copy of this letter, we have today sent a copy of the application by certified mail to Gulf Oil Corporation, The Atlantic Refining Company, Forrest Oil Corporation, and Kerr-McGee Oil Industries, Inc.

Best regards.

Respectfully,

HERVEY, DOW & HINKLE

Attention: Mr. Jack Cooley

Re: Application of Cabot-Carbon Company
to dually complete as an oil-oil
well its J. L. Reed Well No. 2 in
the King Pool, Lea County, N.M.
Our No. 124-42

Dear Jack:

We are enclosing herewith in triplicate Application of Cabot Carbon Company for a permit to dually complete as an oil-oil well its J. L. Reed Well No. 2 in Section 35, Township 13 South, Range 37 East (King Pool), Lea County, New Mexico; attached to the Application is the Commission's form of Application for Dual Completion 7-3-58, a diagrammatic sketch of the dual string proposed completion, and a plat showing the location of the well in question, the offset wells and leases, as well as the names and addresses of the operators of all offset leases.

This application is filed pursuant to amended rule 112-A effective July 3, 1958 under Order No. R-1214.

In reading the above rule, I am unable to locate the provision requiring notice to offset operators where the application is for a public hearing as in the present instance. We have sufficient copies of the application to send to offset owners, but I have not done this as yet, and would appreciate your advice on this point; I do notice the requirement of notice to offset operators where the application is for an administrative approval, but none in the present instance. I might state that the only offset operators to the well in question are companies owning an interest in the well in question (Atlantic, Gulf and Forest), but Kerr-McGee is an offset owner to the lease upon which the subject well is situate. If you feel it is necessary to notify offset owners, then I would further appreciate your advice as to whether this applies to offset operators to the lease or to the well.

December 12, 1958

If possible, we would like to have this application considered at an examiner's hearing in February of 1959.

Best regards.

Respectfully,

HERVEY, DOW & HINKLE
