Commission.

Q In your official capacity as geologist for the Oil Conservation Commission, have you had an opportunity to make a study concerning the necessity or desirability of creating a new pool in Lea County, New Mexico?

A Yes sir, I have made a study of this pool, and due to the complications involved, I recommend that this case be dismissed in 1638, Case 1638.

MR. PORTER: By the complications there, Mr. Runyan, do you mean that there may be some question as to whether this is a part of the existing Crosby-Devonian Gas Pool?

A Yes sir, it's--well, more or less, sir, it needs considerable more study before we can --

MR. PORTER: Before you would make a definite recommendation?

A Yes sir, that's true.

MR. PORTER: Is there any objection to the dismissal of this case?

Case 1618 will be dismissed.
