Case 1927

February 13, 1960

Mr. A. L. Porter, Jr., Secretary & Director
New Mexico Oil Conservation Commission
P.O. Box 871
Santa Fe, New Mexico

Dear Sir:

I herewith enclose plat showing our lease and the adjoining lease ownership. I understand that it is within your power to approve unorthodox locations without advertising and having a hearing, similar to those we have to get a permit to water flood.

The correct notices of intention to drill Form C-101 and Form C-128 have been filed at the Artesia office.

These proposed locations are the regular ten acre five spot pattern originally planned. We should drill some of these locations as soon as possible in order to determine where our pressure is building up. The well in the middle of the five spot marked number one on the plat was originally planned for the first well. It now looks like the pressure is building up on the outside faster than the inside. A slight increase in our #4 and #5 may confirm this condition. I hope we can get a permit to drill one of these wells right away as we should keep up with the progress we are making.

Yours very truly,

J. W. Brown
