Gentlemen:

Enclosed herewith please find Administrative Order No. MC-1156 for your C. L. Hardy Well No. 2 located in the SE/4 SW/4 of Section 20, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico, to permit the production of oil from the Paddock Pool and the production of oil from the Blinebry formation adjacent to the Blinebry Pool.

Very truly yours,

  
A. L. PORTER, Jr.,  
Secretary-Director

SANTA FE, NEW MEXICO

*Case July 96*

October 17, 1961

Gulf Oil Corporation  
P. O. Box 2167  
Hobbs, New Mexico

Attention: Mr. J. M. Russell

Gentlemen:

Reference is made to your letter of October 5, 1961, addressed to Mr. Joe Ramey of the Commission's Hobbs office, requesting authority to remove the meter from the Penrose-Skelly leg of the commingling facility authorized by Commission Order No. R-1678.

Inasmuch as not only the Penrose Skelly but also the Drinkard and Paddock Pools are all marginal, you are hereby authorized to remove the meter which is currently in use.

You are reminded, however, of the provisions of Order R-1678 which require that meters shall be installed on all zones if and when any well becomes capable of producing top allowable for its zone.

Very truly yours,

A. L. PORTER, Jr.,  
Secretary-Director

Re: Application for Approval of ACT System and Request for Permission to Commingle Oil Produced from the Blinebry, Drinkard, Paddock, and Penrose-Skelly Pools Underlying Gulf's C. L. Hardy Lease, SW/4 Section 20, T-21-S, R-37-E, Lea County, New Mexico

Gentlemen:

Gulf Oil Corporation herewith makes application for exception to the applicable Rules and Regulations of the New Mexico Oil Conservation Commission to install and operate automatic custody transfer equipment on subject lease and commingle crude produced from the Blinebry, Drinkard, Paddock, and Penrose-Skelly Pools underlying such lease.

Gulf will request exceptions to:

- (1) NMOCC's Rule 309(a) which requires measurement of oil in tanks before such oil is transported from the lease.
- (2) NMOCC's Rule 303 which prohibits the commingling of oil between pools.

In support of this application Gulf Oil Corporation states the following:

- (a) Applicant is the owner and operator of the C. L. Hardy Lease which consists of the SW/4 of Section 20, T-21-S, R-37-E, Lea County, New Mexico.
- (b) There is no diversity of royalty ownership underlying the above described lease.
- (c) Applicant proposes to commingle the Drinkard, Paddock, and Penrose-Skelly crudes without prior measurement and allocate production on the basis

*May allowable*

*top allowable  
58*

of monthly individual well tests. Blinbry production will be metered separately before commingling with the other crudes.

- (d) The proposed ACT installation will have adequate facilities for all required tests and will result in efficient accounting of crude oil transferred to the pipe line gathering system.
- (e) The granting of this application is in the interest of conservation and will protect correlative rights.
- (f) By copy of this letter all offset operators and the pipeline concerned are notified of this application.

Gulf Oil Corporation respectfully requests that this matter be set for hearing at an early date.

Yours very truly,

H. P. REARDON *w*
