**BEFORE THE OIL CONSERVATION COMMISSION  
OF THE STATE OF NEW MEXICO**

**IN THE MATTER OF THE HEARING  
CALLED BY THE OIL CONSERVATION  
COMMISSION OF NEW MEXICO FOR  
THE PURPOSE OF CONSIDERING:**

**CASE No. 2209  
Order No. R-1910**

**APPLICATION OF THE ATLANTIC REFINING  
COMPANY FOR PERMISSION TO COMMINGLE  
THE PRODUCTION FROM TWO SEPARATE POOLS,  
AND FOR PERMISSION TO INSTALL AN AUTO-  
MATIC CUSTODY TRANSFER SYSTEM, LEA  
COUNTY, NEW MEXICO.**

**ORDER OF THE COMMISSION**

**BY THE COMMISSION:**

This cause came on for hearing at 9 o'clock a.m. on March 3, 1961, at Santa Fe, New Mexico, before Daniel S. Nutter, Examiner duly appointed by the Oil Conservation Commission of New Mexico, hereinafter referred to as the "Commission," in accordance with Rule 1214 of the Commission Rules and Regulations.

NOW, on this 22nd day of March, 1961, the Commission, a quorum being present, having considered the application, the evidence adduced, and the recommendations of the Examiner, Daniel S. Nutter, and being fully advised in the premises,

**FINDS:**

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, The Atlantic Refining Company, is the owner and operator of the State "T" Lease, comprising the SE/4 NW/4, the E/2 SW/4 and the SW/4 SW/4 of Section 2, Township 15 South, Range 37 East, NMPM, Lea County, New Mexico.

(3) That the applicant seeks permission to commingle, after separate measurement, the production from the Denton-Wolfcamp and the Denton-Devonian Pools from all wells presently completed or hereafter drilled on the above-described State "T" Lease.

(4) That the applicant further proposes to install an automatic custody transfer system to handle said commingled production.

(5) That the previous use of automatic custody transfer equipment, similar to that proposed by the applicant, has shown that such equipment is a reliable and economic means of transferring the custody of oil, and that the use of such equipment

-2-

CASE No. 2209

Order No. R-1910

should be permitted, provided adequate safety features are incorporated therein.

(6) That inasmuch as an industry committee has been appointed to study all phases of commingling and to recommend minimum standards to prevent abuses thereof, it may be that this installation, at a later date, will have to be altered to conform to such standards as the Commission may prescribe.

IT IS THEREFORE ORDERED:

(1) That the applicant, The Atlantic Refining Company, is hereby authorized to commingle, after separate measurement, the production from the Denton-Wolfcamp and Denton-Devonian Pools from all wells presently completed or hereafter drilled on the State "T" Lease, comprising the SE/4 NW/4, the E/2 SW/4 and the SW/4 SW/4 of Section 2, Township 15 South, Range 37 East, NMPM, Lea County, New Mexico.

PROVIDED HOWEVER, That it may be that this installation, at a later date, will have to be altered to conform to such standards as the Commission may prescribe.

(2) That the applicant is hereby authorized to install automatic custody transfer equipment to handle said commingled production.

PROVIDED HOWEVER, That the applicant shall install adequate facilities to permit the testing of all wells located on the above-described lease at least once each month to determine the individual production from each well.

PROVIDED FURTHER, That in order to prevent the overflow and waste of oil in the event the automatic custody transfer system fails to transfer oil to the pipeline, the applicant shall add additional storage facilities from time to time, as it becomes necessary, to store the production which will accrue during the hours that said lease is unattended, or in the alternative, shall either so equip the existing facilities as to automatically shut-in the lease production at the wellhead in the event the storage facilities become full, or test the flow-lines to a pressure of at least 1½ times the shut-in pressure of the wells.

IT IS FURTHER ORDERED:

That all meters used in the above-described automatic custody transfer system shall be operated and maintained in such a manner as to ensure an accurate measurement of the liquid hydrocarbon production at all times.

That meters shall be checked for accuracy at least once each month until further direction by the Secretary-Director.

-3-

CASE No. 2209

Order No. R-1910

That meters shall be calibrated against a master meter or against a test tank of measured volume and the results of such calibration filed with the Commission on the Commission form entitled "Meter Test Report."

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
