March 27, 1961

Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico

Gentlemen:

On April 5, 1961, the Commission will hear the application of Amerada Petroleum Corporation in Case No. 2229 to commingle production from the Warren-Connell and Warren-McKee Pools. It is our understanding that both zones are producing below the top allowable.

This is to advise that Skelly Oil Company favors the granting of such application and recommends that commingling be granted as an economical savings as long as both zones are incapable of producing the top allowable.

Very truly yours,

  
George W. Selinger
