## CASE 2304:

# CASE 2305:

Application of Texaco Inc. for permission to market stock tank liquids approximately 11.5 percent in excess of top unit allowable plus such other liquids, including propane, which may be recovered by the installation of an extraction and stabilization plant on its Little Lucky Lake Unit, Little Lucky Lake-Devonian Pool, Chaves County, New Mexico.

CASE 2306:

Application of El Paso Natural Gas Company for an exception to Order No. R-333-C and D, as amended. Applicant, in the above-styled cause, seeks an exception to Order No. R-333-C and D, as amended, to provide for an administrative procedure whereby the time may be extended for conducting and reporting initial deliverability tests on gas wells in the Basin-Dakota Gas Pool, San Juan and Rio Arriba Counties, New Mexico, when the taking of such tasts would prevent the full production of allowable from Pictured Cliffs wells connected to the same pipeline facility. Applicant further seeks an extension of time for conducting and reporting such tests for all Dakota wells without initial deliverability tests which, prior to October 1, 1961, are connected to a low-pressure pipeline facility servicing Pictured Cliffs wells. It is further requested that provision be made for assigning allowables based upon such delayed initial deliverability tests, effective retroactively to the date of connection of the Dakota well to the low-pressure pipeline facility,
