Re: APPLICATION FOR
EXAMINER HEARING

Gentlemen:

Socony Mobil Oil Company hereby requests an examiner hearing before the New Mexico Oil Conservation Commission on or about November 29, 1961.

The purpose of the hearing is to request approval to transfer oil allowable from a presently producing well which will be shut in for an indefinite period while an interference test is conducted in the Boulder - Mancos Pool, Rio Arriba County.

Socony proposes to shut in Boulder #12-14 in Sec. 14, T28N, R1W and record the bottom hole pressure while the other wells in the pool are being produced (see attached map of area). Socony desires to transfer the allowable of Boulder #12-14 to Socony Boulder #23-14. Correlative rights would not be violated by this proposed transfer of allowable.

Your favorable approval of this request for hearing will be greatly appreciated.

Respectfully submitted
Socony Mobil Oil Company, Inc.

Attention: Mr. P. M. Barry

Gentlemen:

Reference is made to your letter of March 19, 1962, wherein you requested a 90-day extension to the interference test and allowable transfer authorized for the Boulder-Mancos Pool, Rio Arriba County, New Mexico, by Commission Order R-2149.

Inasmuch as the testing has been disrupted due to marketing problems created by weather conditions, this office has no objection to the extension requested.

Mobil Oil Company is, therefore, hereby authorized to continue the interference tests and to transfer the allowable from Boulder Well No. 12-14 to Boulder Well No. 23-14 until June 21, 1962.
