Roswell, New Mexico

November 17, 1961

Aztec Oil & Gas Company
920 Mercantile Securities Bldg.
Dallas 1, Texas

Attention: Mr. K. A. Swanson

Gentlemen:

Your letter of October 20 transmits an application dated October 17, 1961, requesting approval for off-lease storage for certain Gallup formation wells on Federal lease Santa Fe 079065.

The diagram you have submitted shows the production from your Aztec-Hagood wells Nos. 25, 26, and 27, lease Santa Fe 079065, being produced into a common tank battery located on a fee lease contiguous to Santa Fe 079065. You state that no other wells will be produced into said tank battery and that production from the fee lease will be to a separately located tank battery.

The method you propose for off-lease storage facilities for your Aztec-Hagood wells Nos. 25, 26, and 27, lease Santa Fe 079065, is satisfactory to this office and is hereby approved subject to like approval by the appropriate officials of the State of New Mexico.

Very truly yours,

JOHN A. ANDERSON
Regional Oil and Gas Supervisor
