Re: Interpretation Orders Nos. R-2068-B, R-2150-A,
R-2151-A, and R-2152-A.

Gentlemen:

This will acknowledge receipt of copies of each of the above referred to Orders.

Paragraph 10 of the Findings of each of these Orders provides as follows: "That it is improper for operating costs to be assessed as a percentage of well costs; accordingly \$75.00 per month should be fixed as the cost of operating the subject well and each non-consenting working interest owner should be assessed with his share of such cost, to be paid out of production." Paragraph 4 of the Order of each of the above referred to Orders incorporates the above Findings into the Order portion of each Order.

It is, of course, obvious that the specific portion of the Orders referred to is making reference to supervision costs as there are, of course, many direct operating costs, and I am advised by Mr. R. S. Morris, General Counsel for the Commission, that this is what is intended by the language used, and, in light of this interpretation, Southwest Production Company will accept this portion of the Orders and make charges to the respective wells accordingly.

Yours very truly,

VERITY, BURR & COOLEY
